---

Success in Mind is a learning center that provides interdisciplinary, non-labeling neurodevelopmental assessments based on the work of renowned pediatrician, Dr. Mel Levine.

The center offers learning assessments and consultations to determine a child's strengths and weaknesses in learning. Based on the student's individual Learning Profile, an individualized Learning Plan is created to help the student achieve success in school and in life.

Dr. Beth Briere, M.D. FAAP worked with Dr. Levine and their colleagues at All Kinds of Minds® to develop the non-labeling assessment model that is now used at Success in Mind. Prior to founding Success in Mind, she served as Chief Clinical Officer of the Student Success Program™ at All Kinds of Minds®.

Success in Mind is closely affiliated with All Kinds of Minds® and UNC-Chapel Hill, where Dr. Briere serves as Adjunct Associate Professor of Pediatrics at UNC. Additionally, Dr. Mel Levine serves as the Senior Clinical Consultant to ensure the center stays on the forefront of integrating the medical, psychological, and educational research into clinical practice.
